- **CBSE National Coding Challenge Felicitation Ceremony**
- **Equity For All!**
- **Celebrating Christmas at Nawal Griha**

What's New at Microsoft

OFFICE 365 IS NOW MICROSOFT 365!

You may have heard that Office 365 now has a new name and a fresh look! We know that you might have questions, so we'll guide you through everything you need to know.

You might know Word, Excel, PowerPoint, and other apps as Office. In fact, they've always been part of the Microsoft 365 subscription, so we are simplifying the brand to reflect that. There is nothing you need to do and the update is free. There will be no changes to your existing account, profile, subscription, or files.

Here are the updates you'll see:

- Office.com has been changed to Microsoft365.com.
- The Office app for Windows 10 and 11 will become the Microsoft 365 app.
- The Office app for mobile will become the Microsoft 365 app.

What is Bookings?

Bookings in Microsoft Teams lets you track, manage, and organize your team's appointments and calendars all in one place. You can create a Bookings calendar and add team members to it, build new appointment types, and create and manage in-person and virtual visits for your staff and attendees.

TOP 10 SCHOOLS

Coding Challenge
2023 | Juana
Technologies Pvt Ltd

CBSE - National Coding Challenge is an opportunity for students from classes 6th to 8th to showcase their 21st century skills to solve some of the real-life issues with technology.

Join the coding competition brought to you, in partnership with Microsoft and become the coding champion.

MASP STORY

'We believe in building excellence, empowering young minds with capacities of critical and creative thinking, nurturing values, and instilling humanity in one's being.'

Our school, today, is renowned and famed amongst the best Educational Institutions in Delhi and NCR, bestowed with several celebrated awards and recognitions by various educational groups and agencies, and is ranked 4th amongst the East Delhi Leaders- as per the Times Education Survey 2022. The school has been conferred with ISA accreditation by British Counsel for the years 2019-2022 and Atal Innovation Mission (AIM) has regarded the school amongst the best ATL schools of the month, Microsoft Showcase School-2022 by Microsoft, School is entitled as FIT India School and HSGA school, the journey of recognitions still pursues.

The school continues to strive hard in aiming for desired solutions and the team works inexhaustibly to produce the best of its possibilities. Administering themselves as Microsoft Innovative Education Expert title- 106 teachers of the school were rewarded with MIEE badges for their involvement and innovative use of technology in the classroom teaching-learning process. This year 62 teachers of the school were conferred with the title MCE- Microsoft Certified Educators.

The young prodigies of the school are not far behind, they are excelling each day undertaking creative and innovative ventures they are proving their mettle in the field of their work. This year at India Youth Ideathon organized by IIT Delhi, 29 teams of the school made it to the top 1000 and 2 teams stood amongst the top 100. The team SLOOT and Team 'BNG' got ranked amongst the top 25. The Team SLOOT' competed for the finals and stood amongst the top 10 best ideas.

Bal Bhavan Public School, Mayur Vihar-II, Delhi

Our Success Story

We stand as a part of the Bal Bhavan Group of educational institutions run under Lagan Kala Upvan, (a regd. Society), established by its Founder Chairman- Sh. G.C. Lagan, who diligently shaped a niche of a prolific educational institution serving humanity with wisdom and knowledge.

In its list of recent awards, the school is recognized as the "School of Innovation" award at Youth Ideathon 2022 by IIT Delhi, Brainfeed School Excellence Awards 2022', 'Virtual school of the year award' by Education today, Dr. P. M. Joseph Award for the "Best School Promoting Physical Education" and Sports in the 5th PEFI National Awards, received a GOLD medal for an audit under Green Campus Programme by Climate Reality Project India. Recently in its Annual recognition to state teachers organized by the Directorate of Education on 5th September 2022, the school principal Mr. Vividh Gupta was conferred with Delhi State Teachers' Award 2022.

MASP STORY

Bal Bhavan Public School, Mayur Vihar-II, Delhi

Our Success Story

'We believe in building excellence, empowering young minds with capacities of critical and creative thinking, nurturing values, and instilling humanity in one's being.'

With our Propelling notions of "Goodness before Greatness" and Values as chief aesthetics, we at Bal Bhavan aim to nurture the exclusive skills and behaviors of young prodigies with utmost diligence. The school believes in shaping overall beings and honing the tendencies and capacities of future bearers with advancements and techniques as major equities. At Bal Bhavan students are not just pupils but our pride, and the educators unceasingly strive hard in advancing themselves with the finest practices around the world to cater to the need of the present-day learner and facilitate them in marking their presence at a world platform as global citizens contributing to development and sustainability.

We have introduced the Global Citizenship Program as a necessary part of our curriculum where students are sensitized toward their role as world citizens. As NEP 2020 focuses on developing the skills and competencies of young children, the concepts are the key focus in school education at BBPS, Mayur Vihar. As a contributor to the growth of the nation, we are insisting on developing an Entrepreneurial Mindset in young prodigies so that they contribute to shaping a self-reliant India.

Equipped with a wonderful blend of scientific and aesthetic conscience the school works in the direction of achieving targets that can meet contemporary needs. Thus, to propel the student's creative insight and help them grapple with the changing world outside, we work with revised methodologies and goals every year. With world-class infrastructure, that fulfills the needs and comforts of growing students alongside contributing to the global concerns of sustainable development and eco-friendly advancements, the school seeks to provide admissible environs within its vicinity.

CBSE National Coding Challenge 2022 Felicitation Ceremony

“This was a day to felicitate young minds.”

The CBSE National Coding Challenge 2022 felicitation ceremony was a day to felicitate young minds. A day to show how advanced the winners of this challenge truly were. Their projects showed the next level of their thinking process while also showing their compassion for the people and the environment.

Many distinguished guests attended this felicitation ceremony along with the winners of the challenge and their mentors. Along with Dr. Vinnie Jauhari, Learning and Skills Lead, Microsoft India who welcomed the gathering, there was Mr. V P Joy, Senior Executive Vice President, Reliance Industries Limited, Ms. Aditi Misra, Director, DPS Sector 45, Gurgaon, Ms. Monika Mehan, Principal M L Khanna DAV School, Dr. Pratibha Kohli, Principal of Maharaja Agrasen School, and Dr. Amrita Vohra, Director of GEMS International School who all shared inspiring stories of the transformation of CBSE schools.

In the next segment, the top five winning teams showcased their projects to the audience. They showed the thought process behind the making of their projects, the way their projects can be applied in the real world as well as their future ideas regarding their projects.

After the project showcase by the winning teams, Miss. Namya Joshi, a Grade ten student at Sat Paul Mittal School, India as well as the official Minecraft Student Ambassador spoke about her Minecraft journey. She spoke about her love and interest in using Minecraft during the pandemic and how her interest kept growing until she started developing her own lessons in Minecraft.

Next, the awards were distributed to the winning teams of the CBSE National Coding Challenge 2022 as well as their mentors. Mr. Navtez Bal, Executive Director, Public Sector Microsoft India presented the prizes to the winners. This segment was enjoyed by everyone as the prizes were well deserved by the students who worked hard to bring out such innovative projects.

As the felicitation ceremony came to a close, there was a quick question-answer round with some MIE Experts who spoke about their experiences gained on their MIEE journey.

The ceremony ended on a high note with the winners holding up their trophies with pride.

Equity For All!

Rejoice Health Foundation recently held an NRI festival for promoting Ayush, Sports, Tourism & Culture of India. Their main aim in this event was to show the steps that India was taking to tackle the various health-related social issues that are prevailing. Hon'ble Minister Shripad Yesso Naik, Minister Of State for Tourism and Ports, Shipping Waterways of India presided over the event as the Chief Guest and the Keynote speaker.

Juana Technologies with support from Rejoice Health Foundation (RHF) was appreciated for touching the lives of One Million Children with Special Needs (CwSN) using the technology available today for inclusive education.

An inclusive environment is paramount in efforts toward a much-needed change for inclusive education in India. Understanding the challenges of children who are neurodiverse or with SLD (Specific Learning Disability) and taking the onus to lead this change is the only way to build an empathetic and functional community in India.

This is mainly done with the help of Assistive technology (AT) which is any item, piece of equipment, or software program that is used to increase, maintain, or improve the functional capabilities of persons with disabilities. The event also showcased several dances and yoga performances by children with special needs which was heart-touching for the audience.

The speeches made by both the directors of Juana Technologies Pvt. Ltd., reiterated the fact that inclusive education was needed mainly for children with special needs and how technology, especially assistive tools, and software, is making things more accessible. This enhances equity in education and also keeps pace with the National Education Policy. This event was inspirational for all involved to create an inclusive education curriculum so that no one, especially the children with special needs, feels left out.

Celebrating Christmas!

*“Tis the season
to be jolly.”*

*And the children had a jolly
time celebrating Christmas.
Juana Foundation celebrated
Christmas with the students of
the Nawal Griha.*

This celebration was awaited by the children for many days and thus they had done many preparations to fully enjoy this day. The children beautifully decorated the whole classroom and the outside, bringing in more festive cheer. The children also created small Santa Claus models, stars, gifts, and small snowmen to decorate the room. This decoration showed the creativity of the children and their anticipation for the forthcoming celebration.

The celebrations started with the children being excited to wear the Santa hats and coming to the classroom in Christmas-themed clothes of red, white, or green. They were then taught to sing Christmas carols mainly “Jingle Bells” which they immediately started.

The children’s excitement reached its peak when Santa Claus himself made an appearance. They screamed in delight and started singing and dancing to welcome Santa Claus who came bearing various gifts for the children.

The children themselves were overjoyed to receive these gifts and couldn’t wait to try them out. Along with these gifts, the children also received a lot of candies and cakes, that they enjoyed eating.

Santa Claus was then given a joyful goodbye as he left with all the children wishing him a “Merry Christmas.” After Santa left, the educators of the Nawal Griha played a short movie explaining what Christmas is and why we celebrate Christmas.

The celebrations came to a happy end with the children playing with their gifts as they left for their homes.
